Attention: Mr. Greg Kamens

Dear Greg:

Bill and I want to thank you for your response to my phone call to you concerning a water problem we are having OUTSIDE of our house. I just wanted to pick your brain, given your experience at homebuilding, and, before we knew it, Jim was here checking the sewer line, the water line and whatever else he could think of to check.

We still don't know, specifically, what the problem is, but Sunwood helped to eliminate two sources. We think, in the end, it's an underground spring, but that's irrelevant to this letter which is to say that you have always gone the extra mile.

Our experiences with Sunwood have always been the best, and here we are, three years later, and that is still true. You did a great job on our house; we love it, and we recommend you to everyone.

Sincerely,

A handwritten signature in cursive script that reads "Bill & Priscilla Marks". The ink is dark and the writing is fluid and connected.
